### Flo-Dynamics® Rolls Out TYGER3 Nitrogen Generator

**Elkhart, IN** — Flo-Dynamics, a division of Norco Industries, announced today the immediate availability of its TYGER3, a nitrogen generator/filling station available for purchase through its North American distribution partners.

Frank Casale, Flo-Dynamics Director of Sales and Marketing said, "Field experience clearly demonstrates the TYGER3 can yield a 60 day return on investment, while providing tremendous benefits to the vehicle's owner." Two proven advantages of Nitrogen over air are fuel savings and extended tire life.

The TYGER3 enables rapid and efficient fill rates while achieving the recommended 96+% Nitrogen concentration. The TYGER3 provides ease of use, dependability, and is a great value—benefits Flo-Dynamic's customers have enjoyed for the past 14 years.

"The TYGER3 is perfect for service stations, general repair, fast lubes and others looking for a new profit center" said Casale. "It's small and portable and can service 5-7 vehicles an hour."
